

***Reasons for Allowance***

The prior art does not show or suggest a frameless portable suspension system for tensioning a two dimensional material having a frameless perimeter with opposite upper corners and a bottom secured to the ground and having the tensional two-dimensional material located in a plane perpendicular to said ground and having a pair of adjustable spring mechanisms for holding said two dimensional material with said lower ends of said spring mechanisms being freely pivotable to said ground and in addition to the other elements of the structure claimed.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mike Chambers whose telephone number is 571-272-4407. The examiner can normally be reached on Mon-Fri 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene Kim can be reached on 571-272-4463. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Michael Chambers  
Examiner  
Art Unit 3711
